|| At these hospitals there is, for certain classes of hospital patient, the alternative of an ophthalmic clinic at special times, at a charge of 10s. 6d., including Surgeon's Fee. Full particulars can be obtained from the hospital.

This time-table is prepared by the Out-patient Arrangements Committee of King Edward's Hospital Fund for London, which was appointed by His Majesty the King when Prince of Wales, and President of the Fund, to assist in carrying out the recommendations of the Committee of Inquiry which, under the Chairmanship of the Earl of Onslow, reported in 1932 on Out-patient Methods as affecting the suitability of patients and the time of waiting. The late Sir John Rose Bradford was the first Chairman, and Dr. H. Morley Fletcher was appointed as his successor.

Lord Onslow's Committee recommended that hospitals should be encouraged to develop the consultative side of their out-patient work and the reference, subject to certain safeguards, of non-urgent minor cases, after first attendance, to suitable agencies which provide general practitioner treatment; and that various time-saving methods of procedure or improvements in accommodation should be studied by hospitals with a view to action where appropriate.

Among matters of detail they advocated the use of standard forms for Doctors' Letters and Hospital Replies, and of Hospital Out-patient Time-Tables

The first edition of this time-table was accordingly issued in September, 1933, accompanied by specimen standard forms prepared by the British Medical Association and the London Panel Committee.
